WHY AQUA GENIUS?

1. Unrivalled Energy Efficiency

- World First Gold Green Tag Accreditation for the drinking water category awarded to Billi systems
- Billi's unique heat exchange system is a process whereby heat generated during the chilling cycle is captured and reused to preheat the boiling water!

2. Cutting Edge Water Cooled technology

- No energy wasting fans are required.
- Billi offers the smallest under-bench systems whilst delivering the highest outputs.

3. No Ventilation Required

- No need for unsightly vent grilles.
- Preserves cupboard joinery life.

4. Genius Dispenser Design

- A range of 'fit for purpose' and stylish tapware, available in any colour you like!
- Standard levered dispensers comply with AS1428.
- Splash free technology gives you peace of mind.

5. Australian owned, designed and manufactured
